ABOUT ME

Over the past year I have been transitioning careers from insurance to web development. I have done this by taking on contract work for Blue Goji, Conversion Fanatics, and Ninbitsu, along with taking an intensive 12 week web development class through General Assembly.

EXPERIENCE

(7 months)

FREELANCE WORK
BLUE GOJI, CONVERSION FANATICS, NINBITSU

Working as a freelancer I have had the opportunity to challenge myself and learn new technologies such as React that I had not studied while at General Assembly. I have built custom HTML emails that Blue Goji used in their marketing campaigns. I worked with Conversion Fanatics to update a client's sign up forms to be modern and responsive. Ninbitsu had a client that was building a Linkedin type platform where I contributed to the front end with React and Bootstrap.

(1 YEAR & 6 MONTHS)

EMPLOYEE BENEFITS BROKER
FROST INSURANCE

Frost Insurance, an affiliate of Frost Bank, is the third largest commercial insurance brokerage and consulting firm based in Texas. As an Employee Benefits Broker, I helped companies navigate the complexities of group insurance and health care reform to deliver quality risk management and insurance programs for their employees.

(3 YEARS)

PRINCIPAL
LTC BENEFIT PARTNER

Being the Principal I setup up Long – Term Care benefit plans for all types of groups such as cities (City of Alamo Heights) associations (Texas Public Employees Association) non – profits (El Buen) and private companies (Citizens Banks).

EDUCATION

(12 WEEKS)

WEB DEVELOPMENT IMMERSIVE
GENERAL ASSEMBLY

The education I received from General Assembly ranged from programming fundamentals to launching full-stack web apps, and learning to solve problems with code while applying industry best practices in a collaborative environment.

(3 YEARS)

BUSINESS ENTREPRENEURSHIP
BAYLOR UNIVERSITY

While at Baylor I studied business and competed in a entrepreneurship competition which the team I was part of finished 2nd out of 85.
